

GENERAL INFORMATION

The sale will commence at 12 noon.

All sheep sold are registered with British Berrichon du Cher sheep Society Ltd. Registration certificates will be handed from the office on payment on animals. Best of the Berrichon sale is an invitation ewe production sale, not a society sale. All sheep will be sold in guineas (105p) and strictly in catalogue order.

HEALTH

The sheep are all from Maedi Visna Accredited flocks registered with the SAC Sheep & Goat Health Scheme.

GENOTYPE

All sheep are guaranteed through parentage to be either group 1 or 2.

INSPECTION

All sheep are open to inspection on the evening of 18th November and the morning of the 19th November.

SCANNING RESULTS

All sheep that are scanned will have results either printed in the catalogue or announced on the day. This in no guarantee of the numbers of lambs to be born, but purely an indication.

If the ewe proves not to be in lamb at the time of the sale and within 7 days after the sale the purchaser must give written notice to the auctioneer of his intention to return the animal supported by a veterinary's certificate which proves the ewe is not in lamb. The ewe can then be returned to the vendor for a full refund.

Some ewes will be sold as "running with the ram" here no guarantee is implied that the ewes are in lamb.

RESTRICTIONS

By prior arrangement. Any purchaser prevented from taking delivery of any ewe by government restrictions, the vendors will keep them until such times as permission is granted. Whilst every care will be taken, ewes will be at purchaser's risk.

FURTHER INFORMATION can be found at www.berrichon.co.uk

SALE FORWARD

2011 sees the seventh annual Best of Berrichon Sale, and like every year will provide a good cross section of ewes; from potential show ewes to good sound breeding ewes.

All scanned in-lamb to some of the best rams in the breed. In the past ewes from this sale have been shown to win at the highest level, as well as rewarding their purchasers with some excellent stock rams and foundation ewes.

Ewes are all registered with the Berrichon society, and can be purchased with confidence in the knowledge that vendors all respect the relevant society guidelines.

We welcome a new vendor at the sale this year: The Inledon Flock. This flock has been founded and built up exclusively from Best of Berrichon flocks, and has already had success both in the show ring and sale ring. We wish John & Jean and daughter Lauren every success today.

If you are able to visit Worcester Market on November 19th, you will be made most welcome whether you are there to buy or just to look. We all look forward to meeting you, showing you our sheep and enjoying a friendly natter.

STRATHALLAN FLOCK

The Strathallan flock hasn't seen the show ring in 2011 due to other commitments, then we made the 700 mile round trip to Built NSA ram sale.

We had another successful day on the Sunday taking the championship for the third year in a row. The show was followed up with a successful sale the next day achieving the top price of 1150gns for the half brother to Lot 5 RBG10 020.

The ewes on offer are genuine gimmers which have endured one of the wettest summers in Scotland. The genetics are chosen for size, presence and longevity and would grace any show ring around the country.

Strathallan berrichons, one of the most iconic berrichon pictures ever.

SWINCOMBE FLOCK

The Swincombe flock of berrichons has always kept on commercial lines, being part of approximately 1000 sheep kept on the farm. In recent years we have concentrated on improving the quality of our sheep, trying to put more back end on them and it seems to be paying off, as we have received 4 of the top 6 breed prices this year.

In its 25 years the Swincombe flock has probably had the benefit of more Royal show champions and Paris show champions than any flock in the country. Many of them have had a positive influence on our flock and have helped us win breed championships at Devon County Show and Royal Welsh Shows, this year the only shows we competed in with berrichon classes.

Most of the ewes on offer are March and April born.

JSC09 004 Henallt Jack

WOODSTON FLOCK

The Woodston flock has had a quieter year than in the last few. Our 'holidays' are usually taken touring around the countryside showing sheep. Although we all enjoy this and the children benefit in many ways a 'holiday' isn't probably what most people would describe it as. With the children in deparate need for a beach holiday we sacraficed some of the earlier shows to take them to the lovely Cornish coast. The positive side was we all had a proper holiday with sea sun and relaxation, the negative side is they all want to go again next year!

The sheep of offer at this year's sale are a combination of yearlings and two shear ewes. The prolificy of the berrichons came to effect one late November weekend last year when the stock ram jumped in with the ewe lambs for only a few days. 5 months later we found 22/36 were in lamb. They all lambed without help outside with very little time to feed any concentrate. After the vast majority rearing lambs, coupled with the driest summer on record in Worcesershire we don't want to bring the quality of the ewes down for the 'Best of the berrichon' sale.

We are really pleased with the two shear ewes on offer, they have grown on well despite no grass or concentrate over the summer and would make a great start to any foundation flock.

Sire Woodston Harrison was reserve interbreed Moreton show 2010 and later exported to Germany.

Full sister retained in the flock

Woodston ewes from a previous 'Best of Berrichon' sale

INCLEDON FLOCK

The Incledon flock of Berrichons was started in 2006 when we purchased 4 ewes from the first Worcester in-lamb sale. From then each year, we return to Worcester to steadily expand our flock. In 2010, we purchased the remainder of the Cattistock flock which increased our flock to around 80 females.

In 2009, after much encouragement, we started to show our Berrichons at the local agricultural show. We took CAT08 236, on his own to the North Devon Show and after winning the overall champion for his class, we were hooked on the showing side of the flock.

The sire of all of our females is CAT08 236 who in 2009, was the Bath and West breed champion.

Other service sires include:

CMH09 906 Woodston Jackers was the Male champion at the Devon County Show in 2010.

INC09 032 is a son of Woodston Harrison (CMH07 002).

INC09 034 is sired by RGB06 015 Strathallan Dennis

CAT08 236 Antwerp sire of all the Incledon Ewes taken Oct 2011
